RESIDENTIAL WATER RATIONING ALLOTMENTS

Water rationing allotments are subject to change. Rationing is expected to begin May 1st.

Use the information on your utility bill to determine your monthly rationing allotment.

1 ccf = 100 cubic feet = 748 gallons = one billing unit

If your account type is…	**Then your monthly allotment is…**	**Which is equal to…**
SINGLE-FAMILY DWELLING	10 ccf per house	249 gallons per household per day
MULTI-FAMILY RESIDENCE	7 ccf per household if your property has 2-4 units 6ccf per household if your property has 5-20 units 5 ccf per household if your property has 21 + units	174 gallons per household per day 149 gallons per household per day 124 gallons per household per day

The SINGLE FAMILY DWELLING allotment is based on a permanent household occupancy of 4. Single-family account holders may apply for a higher allotment by contacting the Water Department. If your household is smaller, use less!

MULTI FAMILY RESIDENCE allotments are based on a permanent household occupancy of 2 to 3 people per dwelling unit. Multi-family account holders may apply for a higher allotment by contacting the Water Department. Allotments will be reduced by 1 ccf per dwelling unit if the property has a separate irrigation meter.

PENALTIES for EXCEEDING YOUR ALLOTMENT

In addition to regular consumption charges, excess use penalties will apply to any water use above your allotment. The first 10% over allotment will cost $25 per ccf. More than 10% over allotment will cost $50 per ccf.

EXAMPLES of EXCESS USE PENALTIES

Account type	Allotment	Monthly consumption	Excess use	10% over allotment @ $25/ccf	>10% over allotment @ $50/ccf
SINGLE-FAMILY DWELLING	10 ccf	13 ccf	3 ccf	1 ccf x $25	2 ccf x $50
MULTI-FAMILY RESIDENCE (5 dwelling units)	30 ccf	37 ccf	7 ccf	3 ccf x $25	4 ccf x $50
