

## **Santa Cruz Wharf Master Plan and Engineering Report Educational and Scientific Related Stakeholders Questionnaire**

**Name/Organization:**

**Email:**

1. Can you please summarize the mission of your group and tell us about the activities you currently host at the Wharf? Why do you have these activities at the Wharf versus someplace else?
2. How can your existing initiatives be better integrated into the Wharf? What is missing?
3. What do you see as potential future education and scientific, green initiatives, test-beds, tours and other collaborations that could be hosted at the Wharf?
4. How else could the Wharf be better utilized as an educational and scientific asset and how can historical, cultural and natural environmental characteristics be communicated in a more direct and engaging manner that will enhance visitor appeal? Also, are there any activities you would not want to see at the Wharf—and why?
5. What resources (monetary or other) could be brought to help implement education and scientific initiatives on the Wharf, including grants, fund-raising, volunteer and student efforts, etc.?

6. Are there examples of successful collaborations that you think we should look of collaborative scientific and educational ventures?
  
7. The Wharf is about to celebrate its 100<sup>th</sup> birthday and over the past 100 years, it has experienced multiple identities and served multiple roles within the community. What do you foresee for the next 100 years?

If the SUBMIT button doesn't work for you, save your completed questionnaire to a local drive on your computer and send an email with the questionnaire attached to: [ndaly@cityofsantacruz.com](mailto:ndaly@cityofsantacruz.com).
