

Contractor & Consultant Open House

The City of Santa Cruz Water Department is undertaking a major program of capital improvements to its water service infrastructure. Key to the success of this program is working with qualified technical consultants and construction partners.

The Water Department will hold an open house for consultants and contractors to learn about the scope of planned projects and needs for consultant and contractor services. An overview of projects will be provided, followed by an opportunity to learn more about individual projects.

Please confirm your attendance and provide contact information for a person in your organization. **Contact Nicole Dennis at ndennis@cityofsantacruz.com or (831) 420-5203 with questions.**

MAY 23

9AM TO 11AM

**Santa Cruz
Civic Auditorium
307 Church Street
