

Downtown Library Site Re-Use Visioning Process

May 4th – Meeting with Church Street Businesses

Attendees: Representatives from Birichino, Cruzio, Ecology Action, & Prophet Elias Greek Orthodox Church.

Feedback:

- Access is important for Cruzio work trucks and Ecology Action bike program trucks with trailers into the Cruzio parking lot
- Keep in mind line of sight for infrastructure on roof of Cruzio building
- Need to maintain street parking in front of businesses for loading and customer access
- Keep in mind Church services schedule – important to retain parking for church users
- Excited about potential event space that could be used by nearby businesses/organizations
- Like the idea of a North/South Street closure that would leave the East side of the street open to vehicular traffic.
