

This stock guide contains food serviceware that is compliant with the

City of Santa Cruz Environmentally Acceptable Food Packaging and Products Ordinance

Vanguard™ Molded Fiber - No PFAS added - BPI Certified

In April 2019, we announced a groundbreaking new line of molded fiber plates and containers. This new line – called **Vanguard™** – demonstrates our continued leadership and innovation in foodservice packaging. The Vanguard™ line uses proprietary alternative compounds to achieve grease-resistance performance, without relying on conventional PFAS*.

Vanguard™ is BPI-certified compostable under BPI's requirements for compostability certification effective January 1, 2020.
