# Polling Results

Which definition of the green economy resonates most closely to you?

A social justice/worker-centered definition, which makes green economy contingent on its potential to address environmental inequity	4	13%
Creating high quality employment in the environmental sector characterized by family sustaining living wages, comprehensive benefits and opportunity for career advancement	5	16%
A broad environmental definition, which defines green as anything relating to environmental protection and quality	8	25%
I don't like any of these definitions	1	3%
A green economy can be thought of as one which is a low to no carbon, resource-efficient and socially inclusive	9	28%
A zero emissions sectoral definition, which defines green economy as activities in the clean energy, green building & energy efficiency,, energy efficient infrastructure/transportation/recycling/waste	5	16%
	<b>32</b>	

What is your top green economy priority from those that emerged from the City's Climate Action Plan 2030 visioning process? If you select "other", please drop it in the chat now.

Pursue funding and increase climate action jobs, paid environmental internships	8	18%
Policies and incentives to continue and expand teleworking	3	7%
Jobs related to renewable energy, building and transportation energy, other environmental jobs and programs supportive of these jobs (e.g. pre-apprenticeship, job fairs, training, etc.)	28	64%
Better wages to enable workers to live where they work	5	11%
	<b>44</b>
