West Cliff Update

October 2023

Exciting Update from West Cliff (1016) Construction Site!

Granite Construction is on site, and the first phase of excavation is officially underway. Here's what you need to know:

Heavy Equipment & Crews:

You'll start to notice some changes around the site. Expect to see heavy equipment, tractors, and light trucks with crews of 6 to 10.

 **Phase Duration:**

The first phase of excavation at the 1016 site is scheduled to continue through the end of October 2023. The first step will be digging a sloped access ramp so that equipment can access the base of the work site. After establishing equipment access, Granite Construction will begin the structure excavation for the new wall.

 **Safety First:**

Your safety is our priority! Please follow all traffic and safety signs, be mindful of any detours, and stay out of the construction area. Those barricades are there to protect you, so please don't remove or go beyond them.

We'll keep you posted as the project progresses, so stay tuned for more updates!

Save the Date

Schedule update!! No meeting on 11/2.

Next community meeting to discuss the 50-year vision for West Cliff:

 **Date: November 7, 2023**

 **Time: 5:30 PM - 7:00 PM**

 **Location: Virtual via Zoom (meeting link to follow).**
